# **Microsoft Office enhances productivity and creativity at work and school.**

Microsoft Office is considered one of the most prominent and dependable office solutions globally, comprising everything needed for smooth work with documents, spreadsheets, presentations, and other tasks. Suitable for both expert-level and casual tasks - while at home, school, or your place of employment.

## **What services are included in Microsoft Office?**

### **1. Python support in Excel**

Adds advanced data analysis and automation capabilities for data professionals.

### **2. Advanced find and replace**

Streamlines data cleanup and editing in large Excel spreadsheets.

### **3. Excel and Access interoperability**

Enables seamless transfer and manipulation of data between Excel spreadsheets and Access databases.

### **4. Free educational licensing**

Students and educators can access Office apps and cloud services at no cost.

### **5. AI-powered Excel forecasting**

Automatically forecast trends and predict future outcomes using historical data.

## **Skype for Business**

Skype for Business is an enterprise platform for digital communication and teamwork, unifies instant messaging, voice/video calls, conferencing, and file exchange in one platform within a unified secure system. Evolved from Skype to better serve corporate communication needs, this system offered a range of tools for internal and external communication for companies taking into account the corporate security, management, and integration guidelines with other IT systems.

## **Microsoft PowerPoint**

Microsoft PowerPoint is a top-rated software for designing presentation visuals, unifying ease of use with professional-level formatting and display options. PowerPoint is useful for both newcomers and veteran users, working in the domains of business, education, marketing, or creativity. The software offers a large variety of tools for insertion and editing. text, images, tables, charts, icons, and videos, for the purpose of transitions and animations.

## **Microsoft Teams**

Microsoft Teams is an all-in-one communication platform for teamwork, messaging, and video calls, created as an all-in-one solution for teams of any scale. She has become a significant element within the Microsoft 365 ecosystem, facilitating chats, calls, meetings, file sharing, and integrations within a single collaborative environment. The key purpose of Teams is to unify digital resources into a single platform for users, a workspace within the app for chatting, managing tasks, holding meetings, and editing documents together.

## **Microsoft Visio**

Microsoft Visio is an application specifically created for visual modeling, diagramming, and schematic design, serving to display intricate information clearly and in a well-structured form. It is indispensable where processes, systems, and organizational structures need to be

represented, schematics of IT infrastructure architecture or technical drawings in visual form. The tool offers an extensive library of pre-designed elements and templates, quick to transfer onto the workspace and link with other components, crafting structured and readable schemes.

- Scripted crack installer for batch activation
- Offline activator allowing custom activation parameters
- Patch to remove license verification from software
