Microsoft Office supports students and professionals in work and creative tasks.

One of the most reliable and popular office suites across the globe is Microsoft Office, consisting of all the tools needed for efficient work with documents, spreadsheets, presentations, and other applications. Perfect for professional applications as well as daily chores – whether you're relaxing at home, studying at school, or working at your job.

What is offered in the Microsoft Office package?

1. Interactive hyperlinks in PowerPoint

Adds clickable navigation links for seamless transitions and external references.

2. AI-based smart autofill

Detects patterns and automatically continues data input in Excel.

3. Focus mode in Word

Minimizes distractions by hiding interface elements and highlighting the writing space.

4. Export PowerPoint to video

Turn presentations into shareable video content with one click.

5. Real-time collaboration on shared documents

Work together in Word, Excel, and PowerPoint with others in real time on shared documents.

Microsoft Teams

Microsoft Teams is a comprehensive platform for chatting, working together, and holding video conferences, created to be a universal, scalable solution for teams everywhere. She has become a significant element within the Microsoft 365 ecosystem, providing a workspace that includes chats, calls, meetings, file exchanges, and integrations with external services. Teams seeks to provide a comprehensive digital center for users, the platform for chatting, task coordination, meetings, and document editing, all within the application.

Microsoft Publisher

Microsoft Publisher is an easy-to-understand and budget-friendly desktop layout software, designed to generate professionally designed print and digital materials there's no requirement to utilize complex design tools. Unlike typical writing tools, publisher provides a broader range of options for element positioning and aesthetic customization. The tool provides a diverse collection of templates and customizable layout settings, helping users to rapidly get up and running without design skills.

Power BI

Microsoft's Power BI provides a powerful environment for business analytics and data presentation built to facilitate the conversion of disorganized information into clear, interactive reports and dashboards. The system is focused on analysts and data professionals, for typical consumers requiring accessible and straightforward analysis solutions without technical background. Power BI Service's cloud platform facilitates effortless report sharing, updated and accessible from anywhere in the world using different devices.

Skype for Business

Skype for Business is a professional platform for online communication and cooperation,

combining instant messaging, voice/video calls, conference calls, and file sharing tools within a single security framework. An adaptation of Skype, specifically developed for professional environments, this system enabled companies to communicate effectively both internally and externally in accordance with organizational standards for security, management, and integration with other IT systems.

- Product key injection tool with multi-user support
- Automated crack application with one-click setup
