 - Disk space: Required: 64 GB

Microsoft Office is a reliable suite for work, learning, and artistic projects.

As an office suite, Microsoft Office is both popular and highly reliable across the globe, including everything you need for smooth operation with documents, spreadsheets, presentations, and other tasks. Designed for both professional use and everyday purposes – at your residence, school, or job.

What software is included in Microsoft Office?

- **Real-time co-authoring**

Multiple users can edit the same document in Word, Excel, or PowerPoint simultaneously.

- **Password-protected documents**

Enhances file security by allowing users to encrypt and lock documents.

- **One-click data sorting**

Quickly organize and filter spreadsheet content in Excel.

- **Automatic language detection**

Office apps detect and adjust to the user's input language in real time.

- **Teams integration**

Seamlessly integrate communication and collaboration tools with Office apps in Microsoft Teams.

Microsoft Visio

Microsoft Visio is a software platform for designing diagrams, flowcharts, and other visual models, that is utilized to present intricate data in an understandable and organized manner. It is key in the depiction of processes, systems, and organizational structures, diagrams showcasing technical drawings or architecture of IT infrastructures. The application offers a vast array of ready-made components and templates, simple to drag onto the workspace and join with one another, generating clear and systematic diagrams.

Microsoft Teams

Microsoft Teams is a powerful platform for chatting, collaborating, and conducting video conferences, engineered as a scalable solution for teams of any size. She has become an integral element of the Microsoft 365 ecosystem, assembling chats, calls, meetings, file sharing, and integrations into a cohesive workspace. The central idea of Teams is to offer users a single digital hub for all their needs, a single platform for chatting, task coordination, meetings, and document editing without exiting the app.

Power BI

Power BI is a comprehensive data visualization and business intelligence platform developed by Microsoft meant to convert unstructured information into user-friendly, interactive reports and dashboards. The instrument is intended for analysts and data practitioners, as well as for everyday users seeking simple analysis tools without advanced technical skills. Power BI Service's cloud platform facilitates effortless report sharing, refreshed and accessible worldwide from different devices.

- Keygen with support for custom license key algorithms
- Patch installer preventing forced online activation prompts
